About KIIT

Kalinga Institute of Industrial Technology (KIIT), a household name in the education sector, has become a sought-after destination in India for professional studies. It is admired all over for the quality of its academic courses, its community outreach work and as a university of compassion and humanitarianism. It has become a case study because no other educational institution in India has grown in its scope and scale as much as KIIT has in a short span of 25 years. Its incredible transformation is truly a journey from Soil to Silver.

About School of Electrical Engineering

The School of Electrical Engineering has been playing a vital role in producing Engineers and Scientists of highest caliber since its inception in the year 1997. At present, it offers Under Graduate, Post Graduate and Ph.D. programs in Electrical Engineering to cater to the ever challenging needs of technical excellence in all areas of Electrical Engineering such as Power Electronics and Drives, Power & Energy System and Power System Engineering. The School is having a vibrant atmosphere due to the combination of input of brilliant students, availability of outstanding faculty members and innovative research work in all areas of Electrical Engineering. The icing on the cake is the accreditation of the School by NAAC, NBA (Washington accord) Tier-I and UGC.

About Conference

KIIT School of Electrical Engineering organizing the 2-days 3rd IEEE International Conference on Industrial Electronics: Developments & Applications (IEEE ICIDEA) from 21st-22nd February 2025. ICIDEA 2025 is the flagship international conference of the IEEE Kolkata Section Industrial Electronics Society Chapter – Bhubaneswar technically sponsored by IEEE Bhubaneswar Subsection in HYBRID Mode. The 1st and 2nd IEEE ICIDEA were successfully conducted by KIIT-DU, Bhubaneswar and NIT Manipur in 2022 and 2023 respectively. The main aim of this international conference is to bring researchers from all the esteemed institutes of the World. Along with researchers the professionals and executives from energy sector, manufacturing industries, electrical power companies are invited to share ideas and information pertaining to innovations focuses on techniques handling today's challenges.

Technical Tracks

- Power Systems and Smart Grids
- Electrical Machines and Industrial Drives
- Power Electronic Converters
- Renewable Energy and Energy Storage Systems
- Transportation Electrification and Automotive Technologies
- Automation, Control, and Digital Systems
- Biomedical Electronics
- Semiconductor Devices and Circuits
- Power Quality Issues and Mitigation, FACTS, Custom Power Devices
- Communication Systems
- VLSI and Embedded System
- Robotics and Mechatronics
- AI, ML & Computational Intelligence
- Cyber Physical Systems and Internet of Things in Industry

Registration fee

	Early Bird Registration		Standard Registration	
	IEEE Members	Non-IEEE Members	IEEE Members	Non-IEEE Members
